Construction, Plumbing and Electrical Installation Courses

Do you want to work in construction?

Westminster Kingsway College offers level 1 vocational courses in Construction, Plumbing and Electrical Installation to help you get ahead in the industry.

Each City and Guilds course will be delivered in the College's new construction learning site at the King's Cross Centre, providing students with a bespoke training environment to develop their love of practical and hands-on work and interest in carving out a career within the construction industry.

Westminster Kingsway College is recognised as one of the leading providers of training in London. Working with top London employers, they create custom designed, work-based training and professional development programmes that have been designed to fulfil the local skills gap and help Londoners find employment and progress.

Visit www.westking.ac.uk/construction to apply today!

Construction City & Guilds Level 1

King's Cross Centre
17 hours per week 36 weeks

About the course

This course is aimed at anyone who enjoys practical hands-on work and is interested in working in the construction industry.

You will:

- Be introduced to the practical skills and knowledge involved in construction
- Carry out practical activities and gain an insight into the industry
- Have the opportunity to go on work experience with London employers
- Study English, Maths, IT and Study Skills as part of the programme to help you progress

Entry requirements

There are no formal entry requirements for this course but you must be willing to work hard and develop team building skills.

Where next?

Upon successful completion of this course you could progress to a higher level course, such as an Apprenticeship or Traineeship.

Employer links

This course is closely linked to employers in the construction industry who advise on specialist facilities, the curriculum and the needs of the industry.
